

AB 977 HMIS Project Setup Instructions

V1.0 (updated March 7, 2024)

STATE DEPARTMENT: California Department of Health Care Services (DHCS)

PROGRAM: Behavioral Health Bridge Housing (BHBH)

Background

Pursuant to [Assembly Bill 977 \(AB 977\)](#), the State of California requires grantees of state funded homelessness programs to enter specific data elements related to individuals and families into their local [Homeless Management Information System](#) (HMIS). The data made available by these reporting standards will create a more accurate account of the individuals and families served by the homelessness response system. This data will result in a more comprehensive understanding of the effects of state funded homelessness programs and allow for better informed policy decisions.

Purpose

The California Interagency Council on Homelessness (Cal ICH) and the California Department of Health Care Services (DHCS) are providing this project setup document in partnership with Abt Global (“Abt”), the technical assistance (TA) provider for AB 977 implementation, based on project setup information provided by Cal ICH as part of broader TA efforts aimed at supporting grantees with AB 977 compliance. This document specifies the entry format for HMIS data entry and describes the project setup requirements for grantees of the Behavioral Health Bridge Housing (BHBH) program.

Grantees should work with their local [HMIS Lead Agency](#) to gain access to the HMIS for the Continuum(s) of Care in which the projects are located and for more information on training, policies and procedures, and other local HMIS requirements. Grantees that operate projects in multiple CoCs will need to set up projects in HMIS for every CoC in which projects are located. The data fields required as part of AB 977 are drawn from the U.S. Department of Housing and Urban Development’s [HMIS Data Standards \(Welfare and Institutions Code section 8256\(d\)\(8\)\)](#).

TA providers from Abt are available to help grantees identify and connect with contacts at their CoCs and HMIS Lead Agencies. For assistance, please email AB977_TA@abtassoc.com. Abt, in consultation with DHCS and Cal ICH, will be providing office hours, trainings, and additional TA between the issuance of this document and the deadline for implementation to ensure that grantees are prepared to achieve compliance with the requirements of AB 977 (see Table 1).

Overview of Project Setup and Data Entry Requirements

Grantees are required to comply with the HMIS project setup and data entry requirements set forth in HUD’s [HMIS Data Standards](#) as well as the additional project setup requirements described in this document, including the grantee funding codes and grant identifiers (see [Appendix C](#)). Ensuring that projects are set up correctly will allow Cal ICH and administering agencies and departments to track AB 977 compliance and develop reports from California’s [Homeless Data Integration System \(HDIS\)](#), a state data warehouse that integrates data from local HMIS systems.

Timeline for Compliance

Grantees, subgrantees, and entities operating projects funded by the BHBH Program that commenced or will commence before May 31, 2024, are required to setup projects in HMIS with the project setup requirements outlined in this document, and enter data for clients currently housed or receiving services from the project, in accordance with the timelines described below (see [Graphic 1](#)). For projects that will commence on or after June 1, 2024, data must be entered beginning on the first day when the first individual or household is served by the project. In order for a grantee to be fully set up in HMIS and entering data for all clients served on the first day housing or services are provided, Cal ICH recommends grantees initiate the process of setting up projects in HMIS 90 days in advance of initial occupancy.

Compliance with the requirements in this document will be validated by Cal ICH using data from the CoCs' uploads from HMIS to HDIS. Data is submitted into HDIS by HMIS Leads and does not require any data submission by grantees beyond data entry into their local HMIS.

Tribal Grantees: In accordance with Cal ICH AB 977 guidance, DHCS is not requiring tribal grantees to comply with AB 977 requirements at this time. However, TA is available to those tribal grantees that want to enter data into HMIS.

Graphic 1: Timeline for AB 977 Implementation

Table 1: TA Activities

Activity	Details	Timeframe
Initial Office Hours for Grantees	Introduction to Abt TA staff and overview of AB 977: BHBH Learning Collaborative	October 19, 2023
Project Setup Instructions	Document containing information on PDDEs, UDEs, CDEs, funding codes, and grant IDs	March 2024
BHBH-Specific Training	Project Setup and Funding Code Requirements and HMIS Universal and Common Data Elements	April 2024
Email Helpdesk	Email-based assistance from Abt for grantees	April 2024 – ongoing
Focused Grantee Support	1:1 meetings between Abt and grantees on an as needed basis	April 2024 – ongoing
Recorded Webinars	HMIS Basics Trauma-Informed Data Collection Data Quality and Compliance Best Practices	Available Here Available Soon Available Spring 2024
Office Hours	Monthly optional office hours for grantees to ask questions about AB 977 HMIS requirements	May and June 2024
Frequently Asked Questions	Questions and answers collected through TA, updated monthly	Ongoing

Project Setup

HMIS projects must be set up before client-level data elements can be entered into HMIS, as required by AB 977. Project Descriptor Data Elements (PDDEs) are fields in the [HUD Data Standards Manual](#) that identify the organizations, specific projects, and details of the projects in which clients are enrolled.

BHBH grantees should work with their HMIS Lead agencies to ensure their projects' PDDEs align with both the [HUD Data Standards Manual](#) and the below requirements. Depending on the HMIS implementation, PDDEs are entered either by the grantee or the HMIS Lead, in consultation with the grantee. A template to gather the required project information is included in [Appendix A](#) of this document.

Because the BHBH program helps temporarily house people as they await permanent supportive housing (PSH) options in their community, it is important to utilize HMIS project types that do not represent a break in homelessness for purposes of assessment or prioritization for a community's PSH.

Grantees with Existing HMIS Projects

Grantees may have set up projects and entered client data in HMIS prior to the issuance of this document. These grantees may need to modify their existing HMIS project data to comply with the requirements in AB 977. Depending on the specific HMIS software used by the CoC, this may require creating new projects. All active clients¹ (new or existing) are required to be entered into the "new" project at the time the new project is set up for the purposes of AB 977 compliance. Grantees should work with their HMIS Lead to determine the best method for updating their existing projects and client data. Abt TA providers can provide additional support to grantees and facilitate this process with the HMIS Lead Agencies.

Project Descriptor Data Elements (PDDEs)

This section describes each PDDE with data entry instructions specific to BHBH-funded projects.

Organization Name: Enter the name of the organization providing state-funded assistance or housing. For grantees that distribute funding to subgrantees or contractors, Cal ICH recommends that grantees that are creating *new* projects in HMIS create separate projects in HMIS for each subgrantee and/or contracted provider. This will allow grantees to monitor AB 977 compliance for each organization operating their program.

Project Type: Select the Project Type based on the type of shelter, housing, or services the grantee or subgrantee provides. Grantees are required to set up projects consistent with the [HMIS Data Standards Manual, section 2.02 Project Information](#). As prescribed by the HMIS Data Standards, each project can only be assigned one project type. If the grantee provides more than one type of shelter, housing, or services they will need to set up more than one HMIS project.

HUD-defined HMIS Project Types and the BHBH-relevant activities are provided in [Table 2](#). Grantees, subgrantees, and their contracted providers should refer to this list while working with their HMIS Lead and Abt TA provider to determine the appropriate project type(s) for their project(s). [Table 2](#) does not reflect an exhaustive list of project activities, and grantees may request assistance with determining the appropriate project types by contacting AB977_TA@abtassoc.com.

¹ "Active clients" refers to any clients enrolled in the project (have a project start date) that have not yet exited the project (do not have a project exit date).

Table 2: HMIS Project Types

HMIS Project Type	HUD Client Eligibility Restrictions	BHBH Project Activities
Emergency Shelter (ES): Entry/Exit (EE)	<p>People experiencing homelessness.</p> <p>*Participants are still considered homeless/chronically homeless if they were considered that at entry to the BHBH project.</p>	<p>Any housing assistance and service delivery for people experiencing homelessness that is temporary that doesn't include tenancy rights for the clients.</p> <ul style="list-style-type: none"> • Interim Housing • Shelter stays • Hotel/Motel vouchers • Temporary Housing (e.g., tiny homes) • Recovery Housing • Peer respite • Shared Housing • Short-term and mid-term rental assistance
Emergency Shelter (ES): Night-by-Night (NBN)	<p>People experiencing homelessness.</p> <p>*Participants are still considered homeless/chronically homeless if they were considered that at entry to the BHBH project.</p>	<p>Any housing assistance and service delivery for people experiencing homelessness that is temporary that doesn't include tenancy rights for the clients.</p> <ul style="list-style-type: none"> • Nightly shelter stays or hotel/motel vouchers.
<p>Permanent Housing (PH) – Rapid Re-housing (RRH)</p> <p><u>RRH subtypes:</u> RRH: Services Only <i>OR</i> RRH: Housing with or without services²</p>	<p>People experiencing homelessness at entry, including people at imminent risk of homelessness³</p> <p>*Participants should still be considered homeless/chronically homeless if they were considered that at entry to the BHBH project. As all participants also have serious behavioral health conditions and may need PSH without BHBH, CoCs are encouraged to prioritize BHBH participants for PSH.</p>	<p>HUD acknowledges that people in Rapid Rehousing are not exempt from eligibility for PSH, but because Rapid Rehousing is considered to be permanent housing, some communities might not prioritize people living in Rapid Rehousing above unsheltered individuals. This project type may be used for some assistance provided through the BHBH program, but it is up to the CoC whether they choose to take into consideration the client's BHBH fund source use as part of the prioritization the CoC does for PSH.</p> <ul style="list-style-type: none"> • Rental assistance with tenancy rights.

² As described on pgs. 25-26 of the HMIS Data Standards Manual: “The ‘Housing with or without services’ subtype must be selected if the project receives any ongoing rental funds, even if not all project participants receive housing assistance funds from the RRH project. Only select the ‘Services Only’ subtype if the ongoing housing assistance for all program participants is provided by another funding source (e.g., Housing Choice Voucher, HUD VASH, other RRH project).”

³ Refer to your program’s definition of at-risk of homelessness, imminent risk of homelessness, and experiencing homelessness. Note that while HUD allows RRH projects to serve people at imminent risk of experiencing homelessness, some CoCs may choose to only serve people experiencing homelessness.

HMIS Project Type	HUD Client Eligibility Restrictions	BHBH Project Activities
Supportive Services Only (SSO): Services Only	People experiencing homelessness at entry, including people at imminent risk of homelessness ⁴	<p>Any service delivery that is connected to or explicitly provides housing but is housing that would otherwise create a “break” in homelessness or chronic homelessness per CoC guidance for assessment and prioritization for PSH.</p> <ul style="list-style-type: none"> • Auxiliary funding for assisted living <p>* This project type should only be used when project activities do not fit into one of the previously mentioned project types.</p>

Funding Sources: Grantees must enter the standardized AB 977 funding source code and Grant ID found in [Appendix C](#). Please consult your HMIS Lead Agency for assistance entering funding sources into the CoC’s specific HMIS software.

- **Funding Program:** Select “Local or Other Funding Source (Please Specify)” in the Funding Program field.
 - **Other funder text box:** Enter into the open text field or select from the picklist the code for BHBH: **CA-DHCS-BHBH**.
- **Grant Identifier (Grant ID):** Enter the program abbreviation (BHBH) appended by the county code found in [Appendix C](#). A complete list of Grant IDs can be found in [Appendix C](#).

Multiple Funding Sources

HMIS allows projects to record multiple funding sources for the same project, with the assumption that all clients and units in that project are funded by the recorded funding programs.

- Example: An ES:EE project receives funding from both the BHBH program and HUD’s Emergency Solutions Grant (ESG) program -> the ES:EE project would select both “HUD: Emergency Solutions Grant” and “Local or Other Funding Sources,” and enter the applicable Grant ID for each source, in the Funding Program fields in HMIS.

For projects that receive funding from more than one California state program subject to AB 977, the project must enter two separate funding source records with the correct Other Funder Code.

- Example: a Services Only project receives funding from both BHBH and the Housing Disability and Advocacy Program (HDAP) -> the project would first select “Local or Other Funding Source” and enter or select from the picklist the funding code for BHBH and enter the BHBH Grant ID; the project would then select “Local or Other Funding Source” again and enter or select the funding code for the HDAP program and enter the applicable HDAP Grant ID.

⁴ Refer to your program’s definition of at-risk of homelessness, imminent risk of homelessness, and experiencing homelessness.

Bed and Unit Inventory: All residential projects must record bed and unit inventory in HMIS; this must represent the total number of units and beds that are available for the clients enrolled in that specific HMIS project and are reported by household type (Adults with Children, Adults without Children, and Child Only households).

For projects that operate with rental assistance or hotel/motel vouchers instead of a set number of units, bed and unit inventory is the maximum number of people and households that could be housed on a single night. For projects without a fixed number of beds, units, or vouchers, grantees should estimate based on the average number of people and household types that are housed each night. Projects that serve more than one household type and do not dedicate a specific number of beds or units to any one household type should estimate the number of beds and units by household type by their average usage.

For more information recording bed inventory in HMIS, please see section *2.07 Bed and Unit Inventory Information* in the [HMIS Data Standards Manual](#). TA providers from Abt can help grantees connect with their HMIS Lead for more detailed help entering bed and unit inventory information. Grantees with specific questions on bed and unit inventory can email AB977_TA@abtassoc.com for assistance.

Required Data Elements

Grantees are required to enter Universal Data Elements (UDEs), items 3.01-3.917, and Program Specific Common Data Elements (CDEs), items 4.02-4.20 and W5⁵ for all clients and members of their household being served by the specified state funding programs, as shown in [Appendix B](#). UDEs are elements required to be collected by all projects participating in HMIS, regardless of funding source. The Program Specific “Common” Data Elements are elements that are required by at least one of the HMIS Federal Partner programs and are collected across most programs. Grantees should collect and enter the fields appropriate to that project type and funding program in alignment with guidance provided within HUD’s manual. For example, a Rapid Rehousing project would not be required to enter “Emergency Shelter Bed Night.”

Each HMIS Lead Agency conducts HMIS end-user training with information on entering data into their specific HMIS software. Abt will be providing additional training on entering the required UDEs and CDEs. Grantees can also email AB977_TA@abtassoc.com with specific questions on the required data elements or for help connecting with their CoC’s HMIS Lead Agency.

Universal Data Elements: The UDEs must be entered for clients active in the project on or after the date on which the project is set up in HMIS. Some UDEs are only entered at the time the client record is created (i.e., at “Record Creation”), for example the client’s name. If some of the project’s clients already have records in HMIS, grantees need only confirm these elements are correct based on information provided by the client when they enrolled in the project. Please refer to [Appendix B](#), which outlines which UDEs are only entered at “Record Creation.”

Common Data Elements: Grantees should enter CDEs for the relevant household members and project types shown in [Appendix B](#). Each CDE is collected at a specified “Collection Point,” meaning the point(s) at which the data must be able to be collected in an HMIS. Grantees are **not** required to collect CDEs at project entry for clients that enrolled in the project before it was set up in HMIS, but these data elements must be collected at project start for all clients who enter the project on or after the date on which the project is set up in HMIS.

⁵ Federal Partner Data Element W5 would be required for a project that received funding from HOPWA.

Privacy

Grantees can use a closed HMIS project set up when necessary to protect client privacy or as required by local HMIS configuration, as long as data are included in the CoC's quarterly data uploads to the state's Homelessness Data Integration System. There may be specific cases where grantees and/or subgrantees are considered victim service providers (VSPs) and are therefore prohibited from participating in HMIS. Please contact Abt if you have any questions about privacy.

Using BHBH Program Funds for HMIS

If no other funds are available, BHBH funds may be used for HMIS licenses, training, and data collection, entry and review. BHBH grantees may request budget changes to accommodate HMIS related costs using the established BHBH Program Plan and Budget revision processes.

Appendix A: Project Setup Template

Grantees can use the template below to gather information in preparation for a conversation with the local HMIS Lead Agency. The HMIS Lead and AB 977 TA providers will assist you with finalizing the responses before setting up the project in the local HMIS implementation. This template is provided for reference; each HMIS Lead may require you to use their own locally adopted form for collecting project information. Grantees are encouraged to reach out to their HMIS Lead as soon as possible for any additional local requirements. Abt TA providers can also assist grantees with connecting to their HMIS Lead. Please email AB977_TA@abtassoc.com for assistance. If a grant includes multiple project types or a continuum and non-continuum project, multiple setup templates should be used.

The descriptions below are not intended to supplant official guidance from HUD on the proper use of a CoC's HMIS. For more details, please refer to the [HMIS Data Standards Manual](#) and to the body of this document.

Project Descriptor Data Element	Description	Project Response
Organization Information		
Organization Name	The legal name of the organization or agency operating project; grantees can provide a legal and a “common” name in the system, if there is another name that is more useful to the community. Projects funded by grantees that are housing developers, but are operated by a service provider, should enter the name of the service provider organization.	
Victim Service Provider ⁶	Indicate “yes” if this organization is a private nonprofit organization whose primary mission is to provide services to victims of domestic violence, dating violence, sexual assault, or stalking.	
Project Information		
Project Name	Create project name to uniquely identify project; grantees can provide a legal and a “common” name in the system, if there is another name that is more useful to the community.	
Operating Start Date	Date project began providing services and/or housing. This should match the date the first client was served in the project and can be in the future if the project has not yet started serving clients.	
Operating End Date	Leave blank until project ceases providing services and/or housing to clients	

⁶ Victim Service Providers are prohibited from entering client-level data into HMIS, thus victim service providers are not required to comply with AB 977.

Project Descriptor Data Element	Description	Project Response
Continuum Project	Indicate “yes” if this project’s primary purpose is to meet the specific needs of families and individuals experiencing or at-risk of homelessness by providing lodging and/or services; see detailed instructions under Continuum Project, above.	
Project Type	Use Table 2 to select the most appropriate anticipated project type; the HMIS lead and AB977 TA providers will provide additional assistance with selecting project types	
<i>[If PH – Rapid Re-housing]</i> Identify RRH subtype	Indicate if the RRH project is 1: RRH: Services Only or 2: RRH: Housing with or without services.	
<i>[If Services Only for “Project Type” or RRH: Services Only subtype]</i> Affiliated with a residential project	Indicate whether the RRH: Services Only or Services Only project is affiliated with a residential project.	
Housing Type	Indicate if the project is 1) site-based in a single location, 2) site-based in a few different locations, or 3) tenant-based	
Continuum of Care Location Information		
Project Street Address	Enter the address of the project; for multi-site projects, enter the address in which most of the project's clients are housed. Tenant-based projects enter the administrative address. Note that if a project is identified as a Victim Services Provider, only the ZIP field is required.	
Project City		
Project State		
Project Zip Code		
Funding Sources (select all funding sources that apply to each project)		
Funder Program and Components	Select “Local or Other Funding Source” from the dropdown menu. This field is a “many to one” to a project, so if there are multiple funding sources to track, HMIS software should accommodate that type of setup. In other words, a separate project is not required for each funding source.	Local or Other Funding Source
<i>If other, specify</i>	Enter the Other Funder Code for BHBH.	CA-DHCS-BHBH
Grant Identifier	Enter the grant identifier provided in Appendix C .	
Grant Start Date	Enter the start date of the project in HMIS or the first date of client enrollment in the BHBH-funded program’s HMIS project.	
Grant End Date	Leave blank until grant year/funding round ends	

Project Descriptor Data Element	Description		Project Response
Bed and Unit Inventory <i>(ES, TH, SH, PSH, RRH: Housing with or without services project types, and other PH only; RRH: Services Only does not enter inventory data.)</i>	Enter the number of units and beds available for occupancy on a typical night. Projects that do not have a fixed number of beds can estimate based on the average household size. Projects that use vouchers or tenant-based rental assistance should estimate based on the capacity needed for the average number of clients served. Beds must be separated out by the Household (HH) Type served (a separate number for HH with Adults and Children, HH without Children, and HH with Only Children). These numbers can be estimated based on average household type for projects that serve multiple household types. Projects also must report the number of these beds that are dedicated to any of the indicated population groups: Veterans, Youth, or Chronically Homeless (or any combination thereof). A dedicated bed is a bed that must be filled by a person in the subpopulation category (or a member of their household) unless there are no persons from the subpopulation who qualify for the project located within the geographic area.		
Enter beds and units for each household type (based on average or typical clients served)	Adults with Children <i>(At least one member 18+ and at least one member under 18)</i>	Adults without Children <i>(All household members 18 or older)</i>	Child only <i>(All household members under 18)</i>
Total Units			
Total Beds			
Dedicated Beds (subset of total beds above):			
Chronically homeless (CH) veterans			
Youth veterans			
Any other veterans			
CH youth			
Any other youth			
Any other CH			

Appendix B: Required Universal and Common Data Elements by Project Type

Number	Element Name(s)	Collected About	Collection Point(s)	PH: RRH	ES: EE	ES: NBN	Services Only
3.01-3.06	Name, SSN, DOB, Race and Ethnicity, Gender	All Clients	Record Creation	X	X	X	X
3.07	Veteran Status	All Adults	Record Creation	X	X	X	X
3.08	Disabling Condition	All Clients	Project Start	X	X	X	X
3.10	Project Start Date	All Clients	Project Start	X	X	X	X
3.11	Project Exit Date	All Clients	Project Exit	X	X	X	X
3.12	Destination	All Clients	Project Exit	X	X	X	X
3.15	Relationship to Head of Household	All Clients	Project Start	X	X	X	X
3.16	Enrollment CoC	HOH	Project Start, Update	X	X	X	X
3.20	Housing Move-in Date	HOH	Occurrence Point	X			
3.917	Prior Living Situation	HOH and Adults	Project Start	X	X	X	X
4.02	Income and Sources	HOH and Adults	Project Start, Update*, Annual Assessment, and Project Exit	X	X	X	X
4.03	Non-Cash Benefits	HOH and Adults	Project Start, Update, Annual Assessment, and Project Exit	X	X	X	X
4.04	Health Insurance	All Clients	Project Start, Update, Annual Assessment, and Project Exit	X	X	X	X
4.05	Physical Disability	All Clients	Project Start, Update, and Project Exit	X	X	X	X
4.06	Developmental Disability	All Clients	Project Start, Update, and Project Exit	X	X	X	X
4.07	Chronic Health Condition	All Clients	Project Start, Update, and Project Exit	X	X	X	X
4.08	HIV/AIDS	All Clients	Project Start, Update, and Project Exit	X	X	X	X
4.09	Mental Health Disorder	All Clients	Project Start, Update, and Project Exit	X	X	X	X
4.10	Substance Use Disorder	All Clients	Project Start, Update, and Project Exit	X	X	X	X
4.11	Domestic Violence	HOH and Adults	Project Start, Update	X	X	X	X
4.12	Current Living Situation	HOH and Adults	Occurrence Point			X	X
4.13	Date of Engagement	HOH and Adults	Occurrence Point			X	X
4.14	Bed-night Date	All clients	Occurrence Point			X	
4.19	Coordinated Entry Assessment**	HOH	At occurrence				
4.20	Coordinated Entry Event**	HOH	At occurrence				

Key: PH: Permanent Housing (including Permanent Supportive Housing, Rapid Re-housing, Permanent Housing: Housing with Services, and Permanent Housing: Housing Only); ES: EE: Emergency Shelter: Entry/Exit; ES: NBN: Emergency Shelter: Night-by-Night; TH: Transitional Housing; HP: Homelessness Prevention; SO: Street Outreach; HOH: Head of Household

*The "update" collection point indicates the element may be collected at any point during a project stay to track changes over time or document the occurrence of events (e.g., a service is provided)

** Coordinated Entry only (or other depending on CoC design of Coordinated Entry system; discuss with your HMIS Lead)

Appendix C: List of BHBH Grantee IDs

Each county is assigned a Grantee ID. The HMIS Grant ID is used in combination with the program abbreviation BHBH.

County	Grantee ID	Grant ID
Alameda	01	BHBH01
Alpine	02	BHBH02
Amador	03	BHBH03
